Explanation

The individual issuing department, bureau, office, or agency is considered the publisher of Government publications.

Words and figures enclosed in brackets [ ] are given for information, but do not appear on the title pages of the publications cataloged. Place and printer are not given for publications printed at the United States Government Printing Office, Washington, D. C. Size is not given for octavo publications. Size of maps is approximate, measurement being made from outer edge of border, excluding margin. The dates given with Senate and House documents and reports are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays.

The word "processed" as used in this catalog indicates publications which are reproduced by duplicating processes other than ordinary printing, e. g., mimeograph, multigraph, planograph, rotaprint, multilith. Processed publications are not obtainable from the Superintendent of Documents, and requests for them, if they are available, should be addressed to the issuing office.

Under provisions of the Printing Act of January 12, 1895, all Government publications are entered in the Monthly Catalog. However, administrative and confidential (or restricted) publications are omitted.

The L. C. card number appended to some of the entries is for those libraries ordering printed cards from the Library of Congress. The number at the extreme right of an entry indicates the classification of the publication in the Office of the Superintendent of Documents.

General Information

The Superintendent of Documents, Government Printing Office, Washington, D. C., is authorized by law to sell copies of Government publications and to allow a discount of 25 percent to book dealers and also to quantity purchasers of 100 or more copies of a single publication on condition that they will adhere to the public sales price set by the Superintendent of Documents and that publications shall not be overprinted with any advertising matter.

Publications cannot be supplied free to individuals nor forwarded in advance of payment.

PRICE LISTS

There is no general price list of public documents, but numerous lists have been prepared on special subjects and any of these will be furnished free, on application, by subject or subjects concerning which information is desired. It will also be noted that current publications which are for sale are listed in this catalog.

LIST OF SELECTED PUBLICATIONS

In addition to the price lists, the Documents Office issues a biweekly list of Selected United States Government publications for sale by the Superintendent of Documents. Each list is arranged alphabetically by subjects, with annotations and prices, and may be obtained free upon application to the Superintendent of Documents.

CONGRESSIONAL BILLS, DOCUMENTS, AND REPORTS

More than 12,000 different bills are usually introduced during a Congress, and there are additional prints on many during the progress of the legislation. With the exception of a very few—such as revenue bills—the demand is an unknown quantity and on most of them we receive no orders, which makes it impossible to print a sales supply. It may be that a copy could be obtained from your Congressman.

A difficult problem is also presented in providing a supply of congressional documents, hearings, and reports because there are approximately 6,000 of this class of publications issued during a Congress and only a few of them are called for. We will attempt to print for sale a few of the more important ones, but if not priced the only possible source would be from your Congressman.

HOW TO ORDER PUBLICATIONS

Publications entered in this catalog that are for sale by the Superintendent of Documents are indicated by a star (*) preceding the price. A dagger (†) indicates that application should be made to the department, bureau, or division issuing the document. A double dagger (‡) indicates that the document is printed for official use and is not obtainable. The symbol (ø) indicates the publication was received late and no copies are available at the Division of Public Documents. Whenever additional information concerning the method of procuring a document seems necessary, it will be found under the name of the bureau by which it was published.

In ordering a publication from the Superintendent of Documents, give (if known) the name of the publishing department, bureau, or division, and the title, together with the classification number which is added to the entry at the extreme right; order the congressional documents and reports by the title, together with the document or report number and the Congress, e. g., H. doc. 108, 82d Congress.

Do not use the L. C. card number in ordering a publication from the Superintendent of Documents.

HOW TO REMIT

Remittances for documents marked with a star (*) should be made to the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C., by coupon, postal money order, express order, or check. Publications cannot be mailed in advance of receipt of remittance. Currency may be sent at sender's risk. Foreign remittances should be made either by international money order or draft on an American bank.

Foreign money, defaced or smooth coins, will not be accepted. Do not send postage stamps.

For the convenience of the general public, coupons in the denomination of 5c that are good until used in exchange for Governmet publications sold by the Superintendent of Documents may be purchased from his office. Address order to Superintendent of Documents, Government Printing Office, Washington 25, D. C.

Persons who make frequent purchases from the Superintendent of Documents may find a deposit account convenient. Deposits of $10.00 or more are accepted against which orders may be placed without making individual remittances or first obtaining quotations. Order blanks are furnished for this purpose. After the handling of the order has been completed, it will be returned showing the publications supplied, explanations regarding those not sent, the amount of charge, and the balance on deposit.

No charge is made for postage on documents forwarded to points in United States and possessions, or to Canada, Cuba, Mexico, Newfoundland (including Labrador), and certain Central and South American countries. To other countries the regular rate of postage is charged, and remittances must cover such postage. In computing foreign postage, add one-third of the price of the publication.

LIBRARY CLASSIFICATION IN DOCUMENTS OFFICE

The classification given at the right of entries for departmental publications is that used in the Library of the Division of Public Documents. It is also used as a catalog number for sales stock of this office. The shilling mark (/) separates what would ordinarily be superior or inferior numbers or letters, as it is not practicable to print these numbers or letters as superiors or inferiors in the Monthly Catalog.

15629 2401. Temperature distribution in internally heated walls of heat exchangers with noncircular flow passages using coolants with very low Prandtl number [with list of references]; by E. R. G. Eckert and George M. Low. Washington, July 1951. cover title, 29 p.+[2] leaves, il. 4°

15630 2405. Investigation of NACA 64, 2–432 and 64, 3–440 airfoil sections with boundary-layer control and analytical study of their possible applications [with list of references]; by Elmer A. Horton, Stanley F. Racisz, and Nicholas J. Paradiso. Washington, July 1951. cover title, 40+[6] p. il. 4°

15631 2406. Application of X-ray absorption to measurement of small air-density gradients [with list of references]; by Ruth N. Weltmann, Steven Fairweather and Daryl Papke. Washington, July 1951. cover title, 41 p.+[3] leaves, il. 4°

15632 2407. Method of analysis for compressible flow past arbitrary turbomachine blades on general surface of revolution [with list of references]; by Chung-Hua Wu and Curtis A. Brown. Washington, July 1951. cover title, 42 p.+[3] leaves, il. 4°

15633 2408. Approximate design method for high-solidity blade elements in compressors and turbines [with list of references]; by John D. Stanitz. Washington, July 1951. cover title, 76+[6] p. il. 4°

15634 2409. Summary of methods for calculating dynamic lateral stability and response and for estimating lateral stability derivatives [with list of references]; by John P. Campbell and Marion O. McKinney. Washington, July 1951. cover title, ii+97+[6] p. il. 4°

15635 2411. Method of determining initial tangents of contours of flow variables behind curved, axially symmetric shock wave [with list of references]; by George P. Wood and Paul B. Gooderum. Washington, July 1951. cover title, 44 p.+[2] leaves, il. 4°

15636 2413. Flight investigation of effect of control centering springs on apparent spiral stability of personal-owner airplane [with list of references]; by John P. Campbell, Paul A. Hunter, Donald E. Hewes, and James B. Whitten. Washington, July 1951. cover title, 46 p.+[3] leaves, 4°

15637 2414. Experimental determination of critical bending moment of box beam stiffened by posts [with list of references]; by Paul F. Barrett and Paul Seide. Washington, July 1951. cover title, 9 p.+[2] leaves, il. 4°

15638 2415. Experimental study of angle-of-attack vane mounted ahead of nose of airplane for use as sensing device for acceleration alleviator [with one reference]; by Christopher C. Kraft, jr., and Arthur Assadourian. Washington, July 1951. cover title, 8 p.+[2] leaves, il. 4°

15639 2416. Theoretical study of some methods for increasing smoothness of flight through rough air [with list of references]; by William H. Phillips and Christopher C. Kraft, jr. Washington, July 1951. cover title, ii+96 p.+[2] leaves, il. 4°

15640 2417. Preliminary study of stability of flow from 2 ducts discharging into common duct [with list of references]; by Albert I. Bellin, D. Richard Messina, and Paul B. Richards. Washington, July 1951. cover title, 33+[4] p. il. 4°

15641 2418. Flow separation ahead of blunt bodies at supersonic speeds [with list of references]; by W. E. Moeckel. Washington, July 1951. cover title, 39 p.+3 leaves, il. 4°

15642 2419. Correlation of physical properties with molecular structure for dicyclic hydrocarbons: II, 2-alkylbiphenyl and two isomeric 2-alkylbicyclohexyl series [with list of references]; by Irving A. Goodman and Paul H. Wise. Washington, July 1951. cover title, 21+[4] p. il. 4°

15643 2420. Investigation of 75-millimeter-bore cylindrical-roller bearings at high speeds: 3, Lubrication and cooling studies, oil inlet distribution, oil inlet temperature, and generalized single-oil-jet cooling-correlation analysis [with list of references]; by E. Fred Macks and Zolton N. Nemeth. Washington, July 1951. cover title, 49 p.+[3] leaves, il. 4°

15644 2421. Rapid approximate method for determining velocity distribution on impeller blades of centrifugal compressors [with list of references]; by John D. Stanitz and Vasily D. Prian. Washington, July 1951. cover title, 31 p.+[2] leaves, il. 4°

15645 2422. Study of chromium-frit-type coatings for high-temperature protection of molybdenum [with list of references]; by D. G. Moore, L. H. Bolz, J. W. Pitts, and W. N. Harrison. Washington, July 1951. cover title, 39 p.+[3] leaves, il. 4°

15646 2423. Theoretical aerodynamic characteristics of bodies in free-molecule-flow field [with list of references]; by Jackson R. Stalder and Vernon J. Zurick. Washington, July 1951. cover title, 40 p.+[2] leaves, il. 4°

15647 2424. Flight investigation of effect of transient wing response on wing strains of twin-engine transport airplane in rough air [with list of references]; by Harry C. Mickleboro and C. C. Shufflebarger. Washington, July 1951. cover title, 21 p.+[2] leaves, il. 4°

15648 2425. Plastic stress-strain relations for 75S–T6 aluminum alloy subjected to biaxial tensile stresses [with list of references]; by Joseph Marin, B. H. Ulrich, and W. P. Hughes. Washington, Aug. 1951. cover title, 48 p.+[3] leaves, il. 4°
